EXAMINER COMMENT

Information Disclosure Statement

The information disclosure statements (IDS) submitted on 28 April 2010 was filed after the mailing date of the Notice of Allowance on 18 February 2010. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements have been considered by the examiner.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Figure 11A of Webster's Patent No. 6,096,073 illustrates a balloon catheter having a bulge region 100 between its proximal and distal ends. However, such illustration is directed to a balloon prior to undergoing the method of making its final structure (which is shown in Figure 11E), which lacks a bulge region for extending movable members of a stent radially outward.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MELANIE TYSON whose telephone number is (571)272-9062. The examiner can normally be reached on Monday through Friday 7-7 (max flex).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jackie Ho can be reached on (571) 272-4696. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
